

NutriDron, an at home meal kit delivery solution that offers nutritious meals on a daily, weekly or monthly basis via membership or subscription. Our meal kits are delivered via drones. With the meals being delivered via drones, we are able to fulfill same day orders. NutriDron offers meal kits from pre-proportioned personalized meal kits with a cooking time of no more than an hour or a fully prepared ready to eat meal that is ready within minutes.

We want to help everyone discover their inner chef by giving them access to nutritious ingredients and recipes. Customers can choose how many meals they want, how many people the meal should feed, and what kinds of ingredients they want in their meal using the subscription model.

Our targeted audience are the Millennials and the Gen X'ers. NutriDron offers people the convenience for a home cooked meal. While there are many people juggling parenthood and a demanding work schedule. Ideas of making a tasty and healthy meal may cross your mind, but when the day is done, fast food seems more convenient. NutriDron slash meal planning and shopping time by 50% since our kits are delivered pre-prepped with all the needed ingredients and ready to cook. Not only it delivers prepped, but it also comes proportionally so no food is wasted.
